22nd Annual Visitor Studies Association Conference Program

For What It’s Worth: Wrestling with Relevance, Public Value, and Impact

July 21 - 25, 2009

Visitor Studies Association
Dear Colleagues and Friends:

Welcome to St. Louis and the 2009 VSA conference!

This year’s theme – For What It’s Worth: Wrestling with Relevance, Public Value, and Impact – is sure to spark intriguing insights, engaging conversations, and interesting discoveries. The challenge for many practitioners and researchers alike is in how to show and share what we know our organizations mean to communities, how the experiences we create relate to visitor needs, and how a program or an exhibit can bring about a change. Demonstrating relevance, public value, and impact in museums and informal learning environments is a pressing reality. Wrestling with these issues — really digging in, discussing, and defining them — is what this conference is all about.

We are confident that the conference will provide you with many opportunities to learn, share, and grow. There are an array of dynamic panels, papers, posters, and roundtables.

Conference sessions reflect a wide range of strategies and methods for defining and measuring public value.

- How do you determine public value?
- Who determines public value?
- How can you define relevancy in communities?
- What are the internal and external perspectives that shape our understanding and measurement of “value”?
- What does having an impact really mean and how can we assess it?

We hope the backdrop of the Gateway City provides the chance to catch up with old friends and meet new colleagues. Enjoy the chance to network with some of the most forward-thinking professionals in the field today.

Enjoy the conference amidst our fine Midwest hospitality. Have fun exploring vibrant St. Louis!

Another fun thing to experience is St. Louis’ annual summer festival, Live on the Levee. This popular event, which draws large crowds, happens every Friday and Saturday evening in July. River levels permitting, you’ll find live musical performances – both local and national names, food stands, and a fantastic fireworks display on Leonor K. Sullivan Blvd., along the Mississippi River, under the Arch. If crowds aren’t your thing, the conference hotel is ideally situated to provide you with a great view of the fireworks, which typically begin around 9:15 p.m. If you are attending the Friday evening event at The Pulitzer Foundation for the Arts, the buses are scheduled to return from the event in time for the fireworks. Please check at the hospitality table or with the hotel concierge for updated information on the festival, including the lineup of musical performers.

CONFERENCE EVENTS
Tickets are required for the following events unless otherwise noted. (Tickets ARE NOT AVAILABLE ON-SITE; however a ticket exchange board will be located in the registration area. If you have an extra ticket or are looking for one, please check the ticket exchange board). Please check event description for bus departure information.

Pre-Conference Walking Tour of Downtown St. Louis

FREE, pre-registration required

Explore St. Louis’ history and architecture! See the world’s first true skyscraper, the site of the transfer of the Upper Louisiana Purchase, the world-famous Eads Bridge, the location where the Lewis and Clark Expedition ended, and other amazing sites on a special walking tour conducted by National Park Service historian Bob Moore. A scholar of both St. Louis history and architecture, Dr. Moore will lead an exploration of historic buildings that are currently standing and a discussion of the location of past structures. The tour will end in historic Laclede’s Landing where there are a variety of lunch options. The group may choose to eat together or you can have lunch on your own. Please bring a bottle of water with you. Meet at the 4th Street Entrance of the Hyatt Regency.

6:00 – 10:00 p.m.

Welcome to St. Louis!

FREE with full conference registration. Pre-registration is required. Evening includes dinner, entertainment, and transportation. Cash bar will be available.

Come to the Saint Louis Science Center for a warm welcome to the city and to our 2009 VSA conference! Begin with appetizers and a cash bar in the main galleries where you can take a spin on a Segway, watch a live science demonstration, and don a lab coat and goggles to conduct an experiment in the new, interactive Life Science Lab. A buffet dinner will be served under the stars in the James S. McDonnell Planetarium. Begin to ponder the conference theme during a star show featuring the vocal talents of local singer Charles Glenn. Following the opening program, enjoy dessert and dancing to music provided by a local DJ. Buses depart at 5:30 p.m. from the 4th Street Entrance of the Hyatt.

Event hosted by the Saint Louis Science Center. Dinner co-sponsored by the Institute for Learning Innovation and Informal Learning Experiences. Transportation sponsored by the Missouri Department of Natural Resources.

3rd Annual Membership and New Attendees Coffee Talk

Grand Ballroom G & H
Sponsored by Julie I. Johnson

VSA’s Membership Committee invites new attendees, members, and prospective members for coffee and conversation! This is an opportunity to meet other members, network with colleagues, see what VSA membership is all about, and share your ideas about how VSA might better serve your needs. Hope to see you there! Don’t miss this opportunity to see old and new friends.

9:00 – 11:00 a.m.

Grand Ballroom G & H
Sponsored by The Museum Group

This year’s opening keynote session features a moderated panel discussion of varying perspectives on measuring value and impact in arts, humanities, and sciences. Drawing from a unique set of backgrounds and many years of leadership experience, panelists will examine different frameworks on metrics, discuss the practical realities of research and evaluation on impact within their organizations, and showcase the many varieties of public engagement that demonstrate their institution’s commitment to visitors. Panelists include: Maxwell L. Anderson, The Melvin & Bren Simon Director and CEO of the Indianapolis Museum of Art; Emily Zimmern, President and CEO, Levine Museum of the New South; and Beverly Sheppard, President of the Institute for Learning Innovation. Moderating the panel is Elee Wood, VSA 2009 conference program co-chair, and Public Scholar of Museums, Families and Learning, and Assistant Professor of Museum Studies and Education at Indiana University-Purdue University Indianapolis (IUPUI).
Focusing on current research investigating Millennials, the generation born between 1982 and now. This presentation begins to demystify Millennials, investigating their experiences and future museum visits. Art museums typically draw older adults. Yet, to remain relevant, art museums must consider the next generation of visitors: the Millennials, born between 1982 and now. This presentation begins to demystify Millennials, exploring their beliefs and attitudes toward art museums in addition to implications for museums.

**Family Learning in Interactive Galleries in Art Museums**

Jessica Luke

Focusing on current research investigating the value of family-based, interactive galleries in art museums, this presentation describes a large-scale, 3-year study across three art museums. The study was designed to better understand who uses these galleries, in what ways, and how the experience impacts families.

**Perceptions, Relevancy, and Art Museum Visitation**

Theopisti Stylianou-Lambert

Exploring the complex relationship between perceptions, issues of personal relevancy, and visitation decisions, this presentation introduces a conceptual model that emerged from in-depth qualitative research. The model explains how different filters “color” the way we perceive art museums and influence our visitation frequency and museum uses.

**Individual Papers Session B**

**Memories of Wildlife Tourism: From Experience to Action**

Roy Ballantyne, Jan Packer

This paper explores the process through which wildlife tourism experiences can lead to long-term changes in conservation behavior, and build community capacity for sustainable living. Responses from 240 participants revealed four aspects of the experience that should be maintained and strengthened: Sensory Impressions; Emotional Affinity; Reflective Response; and Behavioral Response.

**Mapping Many Voices: Self-Organizing Maps as a Tool for Creating Dialogue among Visitors and Stakeholders**

Mikko Myllykoski

"Dialogue in Silence" is a powerful exhibition where deaf guides invite hearing people to communicate non-verbally through body language and sign language. The exhibition was accompanied by a self-organizing map technology, which mapped visitors according to their attitudes towards deafness and sign language and gave them the chance for in-depth discussion.

**Promoting Label Readership: An Interactive Challenge**

Cathy Hamaker

Interactivity is a staple of so many elements of our exhibits – but does interactivity increase label readership? A study of reading behavior in two children’s museum exhibits indicates that it can and does.

**Individual Papers Session C**

**Seen AND Heard: Defining Impact of an After-School Program**

Kathleen Tinworth

Though students, families, and schools are target audiences, with programs and partnerships developed specifically for them, little is known about the impact these efforts make. This presentation chronicles one approach to addressing value, relevance, and impact of a museum-led after-school program, including how evaluation results can guide future programming and decision-making.

**Measuring the Impact of Free-Choice STEM Experiences on Girls**

Lynn D. Dierking, Dale McCreedy

This paper describes Phase 1 of a four-phased research study investigating long-term impacts of free-choice science, technology, engineering, and mathematics (STEM) experiences on girls. Phase 1 explored ways young women discuss these early experiences to support the development of a web-based questionnaire for Investigation #2 designed to explore program impacts.

**Testing an Audience Development Model**

Joe E. Heimlich

This study was undertaken in order to suggest strategies and tactics for building audience of a performing arts organization, moving toward behavioral outcomes. The study examined the literature on audience behavior and audience development, conducted interviews and surveys, and applied structural equation modeling to determine intention to act.

**Panel Presentation: A Critical Look at “Critical Appraisal”**

**Individual Papers Session C**

Mills Studio 3

Stephen Bitgood, John Kelton, Renee Burt

Critical appraisal can be a cost-effective evaluation tool when in the hands of an unbiased, knowledgeable professional. While a number of museums have used this method (e.g., Bitgood & Benefield, 1995; 1998), little has been written on its reliability and validity or on how to use it most effectively. This session describes the technique, gives examples of usage, and offers guidelines for use.
Interactive Session: How to Measure Impact at Your Institution: A Dialogue
Grand Ballroom G & H
Jenny Heim, Theresa Esterlund, Pino Monaco, Amy Niedbalski, Staci Willis

Are you currently in the throes of setting up a system for measuring impact or preparing to begin? In this facilitated discussion, participants will: raise questions; hear focused case studies; and begin to identify common challenges, effective solutions, and key components in the iterative process of creating an institution-wide approach.

12:35 – 2:00 p.m.
Lunch on your own

2:00 – 3:00 p.m.
Concurrent Sessions – Two
Co-sponsored by Tisdal Consulting and Oberg Research

Interactive Session: Discussing the NRC’s Consensus Study on Learning Science in Informal Environments
Grand Ballroom G & H
Sue Allen, Kirsten Ellenbogen, Michael Feder, Cecilia Garibay, Laura Martin, Dale McCreedy

Earlier this year, the National Academy of Sciences published a report, Learning Science in Informal Environments: People, Places, and Pursuits, which summarized the evidence for the learning of science in a broad array of informal environments. In this session, several of the authors facilitate a discussion of some of the key findings and implications.

Interactive Session: Dimensions of Public Engagement with Science: Building Towards a Framework for Evaluation
Grand Ballroom F
Ellen McCallie, Christine Reich

This talk builds on previous VSA conference sessions on Public Engagement with Science (PES) by presenting the overarching consensus and findings of the CAISE PES Inquiry Group. Specifically, this presentation seeks to generate discussion about a proposed conceptualization of PES in informal science education.

Panel Discussion: Examining Families at Touch Tanks: Discussing Methods, Findings, and What Comes Next
Mills Studio 1
James Kisiel, Shown Rowe, Joe Heimlich, Judy Koke, Steve Yalowitz

In this unique session, researchers will invite conversation regarding a project aimed at understanding the activities and impacts of aquarium touch tank exhibits. Following presentation of methodology and preliminary findings, project leaders will engage a panel of advisors in questions and critique, providing a forum for visitor research discussion.

Panel Discussion: Explorations in Collaboration: Geology, Informal Learning, and Grand Canyon National Park
Mills Studio 2
Marcella Wells, Deborah Perry

The Trail of Time is an interactive geology timeline trail located on the south rim of the Grand Canyon. This presentation will discuss a 3-year collaboration among geologists, evaluators, designers, and others to develop a world-class outdoor exhibition aimed at helping visitors develop a better understanding of geology and deep time.

3:00 – 3:30 p.m.
Coffee Break
Grand Ballroom A & B

**Deeper Understanding of Visitors Using Psychographics at Conservation Focused Institutions**
Emily Meyer

**New Directions: Enticing and Training the Next Generation**
Kris Morrissey, Nick Visscher

7:00 – 10:00 p.m.

**Come Play Like a Kid at The Magic House! $45**
Event hosted by The Magic House. Transportation sponsored by the Missouri Department of Natural Resources.

Connect with your inner child during a magical night at the Magic House - St. Louis’ Children’s Museum! Transform your silhouette into a kaleidoscope of color, climb a three-story tall bean stalk, or visit the Oval Office. The Magic House, including its new addition, is yours to explore. Plus, everyone can take home a complimentary souvenir photo of your hair standing on end at the electrostatic generator. Bring your own musical instrument and participate in the first VSA sing-along and hootenanny, led by a local singer/songwriter. Start working now on a visitor studies-themed song parody – you might win a prize in our contest! Come ready to sing, explore, play, and create, plus enjoy favorite childhood foods (including ice cream sundaes!).

Pre-registration is required. Evening includes dinner, entertainment, and transportation. Cash bar will be available. Buses depart at 6:30 p.m. from the 4th Street Entrance of the Hyatt.

Friday, July 24
8:30 – 9:00 a.m.

**President’s Address and VSA Business Meeting**
Grand Ballroom G & H

Join fellow members and colleagues to thank outgoing Board Members and welcome incoming Board Members and Officers. Attend the Association’s annual business meeting where you’ll hear the latest VSA news, find out what’s in store for the organization in the coming year, and vote on matters of importance to the Association.

9:00 – 10:00 a.m.

**Keynote Presentation: Dr. Maria Rosario Jackson**
Grand Ballroom G & H
Sponsored by University of Washington Museology Program

“Without a better grasp of how arts and cultural activity can and do shape communities, planners and policymakers cannot do their best work. With better data and analysis, we are making strides in integrating arts and culture as a core topic alongside and within other areas of concern like education, community development, and health. We have come a long way and there is much more to be done, but the assumptions that arts and culture are limited to downtowns, that the only impacts that matter are economic impacts, and that arts and cultural activity are at the periphery of community life rather than at the core are fading as our grasp of how communities actually work and change comes into sharper relief.”

Maria Rosario Jackson, Progress in Arts and Culture Research: A Perspective, 2008.

Dr. Maria Rosario Jackson is a Senior Research Associate in the Metropolitan Housing and Communities Center at the Urban Institute and director of the Urban Institute’s Culture, Creativity and Communities Program. Her research focuses on urban policy, neighborhood revitalization and comprehensive community planning, the politics of race, ethnicity and gender in urban settings, and the role of arts and culture in communities. Her work has typically integrated both quantitative and qualitative research methods. She has provided technical assistance in planning and program implementation and consulted with a range of cultural organizations about their role in promoting civic engagement and community development.

Roundtable Discussions
Grand Ballroom G & H
This year’s roundtable sessions will follow three 30-minute rotations. During this time participants will be invited to sit in on one of the roundtable discussions and move as they like to other presentations during each rotation or stay with the same roundtable.

Effectively Evaluating the Various Forms of Museum Theatre
Sarah Cohn, Elee Wood
Museum theatre is often used as an interpretive tool to emotionally involve visitors in exhibit content. Working with departments to expand theatrical goals from emotion to impact is a challenging task. This conversation focuses on framing studies that capture visitor experiences and communicating with departments to bridge emotion and impact.

Do They Value Us? Attempting to Measure Public Value
Victor S. Yocco
This facilitated discussion focuses on public value: specifically the who, what, when, where, why, and how of measuring public value. Results will be presented from a recent study conducted by the Columbus Museum of Art attempting to measure the museum’s value to surrounding communities.

Preparing for Evaluation: Using Logic Models in Program Planning at a New Science Center
Heather Harkins
This presentation will explore and examine the role of logic models in creating the foundation for program evaluation. Existing program logic models developed for a new science center will be shared as well as the evaluation plans developed as an outgrowth of the models.

What Did You Say? Facilitating Conversations in Planning and Evaluation
Bridget Basta
Demonstrating relevance, public value, and impact has become increasingly important for developers. But how is this achieved when there are different interpretations of what the project does and whom it serves? This presentation will explore techniques for facilitating conversations throughout the development process to create “shared language” in creating strong programs/exhibits.

Issues in Joint Evaluation: Bridging Indigenous and Western Approaches
Jill Stein
This discussion explores the process, challenges, and potential benefits of conducting a joint evaluation (with more than one external evaluator) to more effectively document multiple cultural perspectives on learning and engagement. The author draws upon an NSF-funded project, Cosmic Serpent, to discuss how indigenous and western evaluation practices work together.

Rigorously Categorizing Museum Offerings: Practical Applications for Cluster Analysis
Toni Dancu, Josh Gutwill
This presentation will provide an overview of cluster analysis, a statistical methodology for systematically categorizing museum offerings (e.g., exhibits) into distinct types. Cluster analysis will be presented in the context of an applied example, where Exploratorium researchers employed the methodology to enhance museum research and inform choices during exhibition development.

Building Institutional Knowledge Across Evaluations
Anna Lindgren-Streicher
For many evaluators, studies focus on evaluating the impact of one project. This presentation will use a series of studies focused on engaging visitors in engineering as a case study that illustrates how a knowledge generation model was used to build institutional knowledge, and share the techniques that were used.

Believing What We See: Use of Video in Museum Exhibits
Jennifer Borland, Saul Rockman
This discussion explores factors related to the use of video in museum exhibits. It includes a short summary of published findings as well as previously unpublished findings from the presenters’ research and evaluation experiences.

What Does a Museum Mean? A Narrative Approach to Museum Impact
Philipp Schorch
This paper argues that the impact of museums is best understood via the meanings visitors make and negotiate in the long-term. Applying the narrative methodology, with its inherent socio-cultural and individual layers of meaning, will contribute to the fields of museology and visitor studies.

Panel Discussion: The Roles of Evaluation in Training Scientists in Public Communication
Mills Studio 3
Elisa Israel, Staci Willis, Todd Gieske, Christine Roman, Bryan Wunar
Science museums are becoming increasingly involved in training research scientists as public communicators. A vital component of these programs is the inclusion of evaluation methodologies as training tools, improving understanding of public audiences. Highlighting two NSF-funded science communication programs, this session will explore how evaluation techniques have strengthened such programs.
### Individual Papers Session E

**Mills Studio 1**

**Connecting Pupils, Curriculum, and Informal Learning Environments**

*Theano Moussouri*

This presentation will examine how mobile and web technologies can be used to connect pupils, curriculum and informal learning environments. It will present results from a formative evaluation study carried out at the National Maritime Museum in London, UK.

**The “Enhanced” Fieldtrip: Study of Audience Values and Institutional Impact**

*Scott Burg, Meg Burke, Lorie Topinka*

Evaluation of the California Academy of Sciences Enhanced Museum Visits for Students program provides a unique glimpse into the many critical educational, logistical, and experiential elements that define a museum’s value for the public at large. Learn how this evaluation helped to reshape Academy internal and external programs and processes.

**Chinese Museum and School Reforms: Understanding Perceptual Barriers to Bridge the Divide**

*David Anderson*

This paper reports the perceptions of key stakeholder groups (museum staff, teachers, university science educators) around the idea of school-museum collaboration in the context of modern-day China where school field trip visits to museums are not a tradition or practice of the K-12 education system.

**Panel Discussion: The Role of Emotion in Free-Choice Learning**

*Grand Ballroom F*

*John Falk, Katie L. Gillespie, Lisa-Anne Kelly, Amy Niedbalski*

Although emotion is often cited as being important to the visitor experience, few researchers have investigated the topic. This session will provide an overview of current emotion research from a variety of disciplines and will highlight three research studies attempting to investigate the role of emotion in free-choice learning.

### 12:30 – 2:00 p.m.

**13th Annual April Award Luncheon**

*Grand Ballroom A & B*

Lunch sponsored in part by StudioCode

The 2009 April Award recipient is Paula Lynn, Education Research Associate at the Museum of Fine Arts, Boston. VSA’s past Board president and outgoing Chair of the Professional Development Committee, Mary Ellen Munley, is this year’s featured speaker. Ms. Munley will address the key issues in this year’s conference theme: relevance, public value, and impact. Ms. Munley has more than 30 years of experience as a museum educator, administrator, and audience research and evaluation specialist tackling these challenging issues. She is also a distinguished recipient of the American Association of Museums award for excellence in the practice of museum education.

### 2:15 – 3:30 p.m.

**Concurrent Sessions – Four**

*Sponsored by MUSEUM DESIGN*

### Interactive Session: Rethinking Institutional Models: Cross-Pollination of Museum and Community Engagement Practices**

*Grand Studio 1*

*Lisa Harper Chang, Matthias Waschek, Betul Ozmaz, Leslie Scheuler*

This interactive session featuring presenters representing the museum world, applied social sciences, and evaluation, focuses on how to share best practices from all of these worlds to effectively engage communities.

**Panel Discussion: Different than Other Settings? Visitor Studies in Art Museums**

*Mills Studio 3*

*Barbara Palley, Judy Koke, Juliette Fritsch, Joe Heimlich (moderator)*

Is visitor studies in art museums different than in non-art settings? Through a series of case studies and large group discussion, this session will explore how the nature of learning in the arts and the history and culture of art museums might provide opportunities and challenges for visitor studies.

### Individual Papers Session F

**Grand Ballroom F**

**Investigating Parent-Child Metacognition**

*Kirsten Ellenbogen, Sarah Cohn, David Anderson, Greg Thomas*

This study investigates parents’ metacognition and views of learning. The interview process was designed to prompt parents to be self-reflective about interactions with their children at a math exhibit in a science museum.

**Effectively Researching Early Childhood Learning**

*Alice Stevenson*

What can science museums say about the early childhood cognitive, developmental, and social learning that is happening in our spaces? The New York Hall of Science started a research project documenting early childhood learners and soon came upon the many challenges of evaluating this age group and type of visitor. Solutions, issues, and next steps will be discussed.

**Interactive Session: What Does it Mean? Strategies for Communicating Research Implications**

*Grand Ballroom G & H*

*Jessica Sickler, Preeti Gupta*

In this interactive session, panelists will briefly present four examples of dissemination efforts designed to help practitioners translate the findings of research or evaluation into action, followed by discussions about needs, strategies, and practical considerations for ways to communicate the practical application of visitor studies.
3:30 – 3:45 p.m.
Coffee Break
Grand Ballroom Foyer
Sponsored by Hilferty & Associates

3:45 – 4:45 p.m.
Concurrent Sessions – Five
Sponsored by AldrichPears Associates

Interactive Session: Evaluating Long-Term Youth Programs: It’s a Whole Different Ballgame
Grand Ballroom G & H
Carey Tisdal, Beth Shea, Christine Klein, Diane Miller
Long-term engagement in out-of-school programs by youth with risk factors in their lives has potential for positive impact. In this discussion, evaluators and program directors will share lessons learned and identify challenging program evaluation issues. Then session attendees will join discussions to develop solutions to these issues.

Panel Discussion: Improving the Field-Trip Experience: Designing Exhibits, Coaching Students, Engaging Teachers
Mills Studio 1
Scott Ewing, Josh Gutwill, Jim Kisiel
This session explores three strategies for improving museum field-trips that focus on different grain sizes: (a) designing exhibits that support facilitation by museum staff, (b) creating facilitated programs to engage students more deeply with exhibits, and (c) working with teachers to help them make better use of museum offerings.

Paper Session: Measuring the Impact of a Science Center on its Community
Grand Ballroom F
John Falk
This presentation includes over a decade’s research on the impact of a science center on its community, including results of three major telephone surveys conducted one year before and one and ten years after opening. The discussion will focus on the implications of findings on current understandings of institutional impact.

Interactive Session: Creating and Sustaining Programming for Social Service Families
Mills Studio 2
Cheryl Kessler, Jeanmarie Walsh, Erik Shurink, Janice O’Donnell
Learn how two children’s museums have partnered with social services agencies to develop and implement programs and family-friendly environments for families in crisis situations. Session participants will discuss the role and type of research that could enhance program effectiveness and inform the field.

Panel Discussion: Making It Obvious: Building an Experience around Data
Mills Studio 3
Rita Deedrick, Joe Heimlich, Nadya Bennett
The Experience Testing Station was created to make the science behind the science of the museum explicit. A fishbowl station was designed for front-end and prototyping to engage visitors as both data providers and observers. We will discuss perceptions of visitors versus staff, types of studies conducted, and lessons learned.

Congratulations to recipients of the April Award and Student Scholarships

The April Award and Student Scholarship programs help bring new talent to the field of visitor studies and the Visitor Studies Association. VSA is pleased to welcome the following recipients to their first Visitor Studies Conference:

2009 Student Scholarships:
Johanna Bromberg Craig, University of Virginia
Philipp Schorsch, Victoria University of Wellington, New Zealand

The Student Scholarship program supports first-time conference attendance for active students interested in the field of visitor studies.
## Conference Schedule (cont.)

### 4:45 – 6:00 p.m.

**Open House at The Old Courthouse**

*FREE to all conference attendees!*

Come to an open house especially for VSA conference attendees at The Old Courthouse, part of the National Park Service’s Jefferson National Expansion Memorial. Explore this majestic structure that exemplifies some of the more tumultuous events in the history of St. Louis and our nation. Tour exhibits that trace the story of urban slavery in St. Louis and the several routes to freedom for persons of color. Visit restored courtrooms, like those in which Dred Scott sued for his freedom and where Virginia Minor’s case for a woman’s right to vote came to trial in the 1870s. For a more personal perspective on 19th century St. Louis, enjoy short plays in which historical characters relate their experiences of the Louisiana Purchase and the Civil War. Theater performers appear courtesy of the Missouri History Museum’s Theatre in the Museum program. *The Old Courthouse is across the street from the Hyatt; look for the green dome! Buses will depart from The Old Court House at 5:45 pm, for those attending A Grand Evening of Art and Music.*

### 6:00 – 9:00 p.m.

**A Grand Evening of Art and Music**

*$30*

Event hosted by The Pulitzer Foundation for the Arts and the Contemporary Art Museum St. Louis.

Dinner sponsored by The Pulitzer Foundation for the Arts.

Join us for an evening of cultural arts and conversation in Grand Center, where art and life intersect. Grand Center is home to numerous arts and cultural organizations, all of which help color and strengthen the social fabric of the city. The evening will feature an opportunity to view the Pulitzer Foundation for the Arts’ current exhibition, *Ideal (Dis-) Placements: Old Masters at the Pulitzer*, as well as the galleries of the adjacent Contemporary Art Museum St. Louis. You will also be treated to a performance by the local jazz group, Jazz St. Louis. After dinner, explore other Grand Center venues and learn how they use the arts to engage the neighborhood and the surrounding metropolitan area.

*Buses for this event will depart from the Old Courthouse at 5:45 p.m.* Pre-registration is required. Evening includes dinner, entertainment, and transportation. Cash bar will be available.

Panel Discussion: Update from the VSA Institutional Review Board Task Force
Grand Ballroom F
Carey Tisdal, Jessica Luke, Kevin Coffee
In May 2007, the VSA Board charged a task force to respond to the requirements of some funders that the research and evaluation studies proposed as part of grants need review for ethical treatment of human subjects. This session summarizes task force efforts and provides a mechanism for member input.

Panel Discussion: The Value of Applying Multiple Evaluations on the Same Project
Grand Ballroom G
Maritza Macdonald, Ellen Giusti, Karen Wizevich
In 2008 the American Museum of Natural History opened the temporary exhibition Water: H₂O =Life. In support of this exhibit the museum conducted three different types of evaluation – teachers and student, general exhibition visitors, and visitors to public programs. Panelists will discuss the value of conducting different types of evaluations on the same topic.

11:30 a.m. – 1:00 p.m.
Closing Luncheon
Park View Room
Sponsored by Independent Exhibitions
Join your colleagues for a fun final farewell conversation. Old friends, new colleagues and you have the last word and set the stage for more dialogue across the ether.
Free; pre-registration required.

1:00 – 10:00 p.m.
Post-Conference Trip to French Colonial History in Ste. Genevieve, Missouri, $60
Bus departs from 4th Street Entrance at 1:00 p.m. and returns at 10 p.m.
Relax and unwind after the conference on this trip to an historic Missouri town and the nearby wine country. Situated on the Mississippi River an hour south of St. Louis, Ste. Genevieve is a picturesque town steeped in history. Settled by French-Canadian habitants in the late 1740s, the village of Ste. Genevieve invites visitors to enjoy the charm of its narrow streets, shops, museums, and the largest concentration of French Colonial homes in the United States. On this specially arranged tour, you will visit the Bolduc House, which dates to 1793 and the Felix Vallé House, built in 1818. After the tours, explore Ste. Genevieve’s historic district on your own or take a short walking tour led by Jim Baker, Felix Vallé House Site Administrator. The trip concludes with wine tasting (including a souvenir glass!) and a delectable dinner at the nearby Chaumette Winery.
Pre-registration is required. Trip includes admission to the Bolduc House and the Felix Vallé House, wine tasting, dinner, and transportation. Additional wine available for purchase at dinner. Transportation sponsored by the Missouri Department of Natural Resources.
Thank You 2009 Conference Sponsors

The Visitor Studies Association 22nd Annual Conference is supported by businesses, organizations, and individuals committed to understanding and serving visitors in informal learning environments. Please support those whose work furthers VSA's vision of a world where lifelong learning is embraced, and where learning in informal settings benefits individuals, communities, and society at large.

ORGANIZATIONAL DEVELOPMENT

Incoming Vice President, Rita Deedrick
Thanks to outgoing Vice President, Daryl Fischer

BOARD DEVELOPMENT COMMITTEE
Chair, Cecilia Garibay
Incoming Vice Chair, Laura Huerta-Migus
Thanks to outgoing Vice Chair, Caren Oberg
Members: Ellen Giusti, Julie Johnson, Janet Rassweiler, Linda Wilson

The Board Development Committee is charged with ensuring effective board governance of the Association. The committee is responsible for overseeing elections, monitoring and assessing board processes, structures and roles, and providing board members with the tools and support needed to fulfill their board duties. Specific responsibilities include: developing a slate that meets the strategic needs of the organization, planning on-going professional development for new and existing board members, and recognizing board members for their contributions.

RESOURCE DEVELOPMENT COMMITTEE
Chair, Robert “Mac” West
Vice Chair, Caren Oberg
Members: Conny Graft, Karen Graham, Jeff Kennedy

The Resource Development Committee organizes, coordinates, and otherwise facilitates all planning and implementation related to the financial stability and growth of the organization. It is responsible for managing conference sponsorships, board giving and other forms of earned income, contributed income, and in-kind contributions to the organization.
PROFESSIONAL DEVELOPMENT

Incoming Vice President, Beverly Serrell
Thanks to outgoing Vice President, Julie I. Johnson

CONFERENCE PLANNING COMMITTEE

Incoming Chair, Jessica Sickler
Thanks to outgoing Chair, Judith Larsen

2009 Conference Team Members: Susan Foutz, Elisa Israel, Cheryl Kessler, Kelly Lidinsky, Caren Oberg, Kathleen Tinworth, Robert “Mac” West, Elee Wood, Randy Roberts

The Conference Planning Committee oversees the conference site selection, program, and logistics for each annual VSA conference and serves as VSA board liaison for those functions. This committee is responsible for setting the strategy and logistics for future conference site selection. The committee provides guidance to the Conference Team and Local Host Committee, both of which are convened annually to design, recruit, and organize the conference program for the following year.

PROFESSIONAL DEVELOPMENT COMMITTEE

Incoming Chair, Cheryl Kessler
Incoming Vice Chair, Kathleen Tinworth
Thanks to outgoing Chair, Mary Ellen Munley

Members: Rick Bonney, Rita Deedrick, Jen DeWitt, Kelly Lidinsky, Tammy Messick, Kris Morrissey, Angela Wenger, Victor Yocco

The Professional Development Committee is responsible for providing training and growth opportunities for VSA members and other museum professionals. The Committee develops, organizes, and facilitates all training opportunities and professional development for VSA including workshops for VSA members and others interested in the discipline, visitor studies training for other organizations, certification recommendations, etc. This committee is responsible for facilitating pre-conference and regional workshops.

OUTREACH DEVELOPMENT

Incoming Vice President, Matt Sikora
Thanks to outgoing Vice President, David Anderson

PUBLICATIONS COMMITTEE

Chair, Karen Knutson
Vice Chair, Jim Kisiel

Members: Chantal Barriault, Susan Foutz, Jenny Heim, Robert Jakubowski, Jessica Luke, Preethi Mony, Melissa Wadman, Steven Yalowitz

The Publications Committee provides oversight for all publications related to the mission of VSA. This includes serving as the VSA liaison with Francis and Taylor (publishers of the association’s journal Visitor Studies), working with the editors and editorial board of the journal, and overseeing facilitation of the VSA website. This committee is also responsible for development of the Conference Abstracts publication and is involved in researching and making recommendations about other publication venues to further VSA’s mission.

MEMBERSHIP COMMITTEE

Incoming Chair, Leslie Hartog
Thanks to outgoing Chair, Matt Sikora

Members: Kerry Bronnenkant, Elizabeth Daigneault, Sofie Davis, Amy Grack-Nelson, D.D. Hilke, Anna Lindgren-Streicher, Giuseppe “Pino” Monaco, Melissa Wadman, Elee Wood

The Membership Committee works collaboratively with other VSA Committees and Task Forces to: gather input from the membership at regular intervals; maintain a current membership profile and track and project trends in that profile; identify members’ needs for programs, services, and benefits; identify potential members, crafting strategies to attract and serve them; develop and implement strategies to build and retain membership; work with VSA Association Manager regarding policies and procedures related to membership management and retention.
